## Who we are

Altex Partners is the leading independent fund of hedge funds manager under Spanish regulation. Altex Partners Gestión's team has been investing in hedge funds since 1995 and is specialized in fund of hedge funds and customized absolute return portfolio management. Our client base includes private banking institutions, savings banks, pension funds, insurance companies, family offices. Shareholders are 100% independent, with no connection to any financial group. In Altex we seek the highest commitment from our team and the maximum alignment of manager's and investors' interests. All our managers are partners of the company and invest a large proportion of their personal assets in the funds they manage.

The funds managed or advised by Altex aim to offer investors above average risk-adjusted returns, based on a careful and diversified selection of strategies and single managers. Portfolio management is dynamic and rotation is based on macro-economic market analysis, thorough due diligence analysis and performance potential of the underlying funds. In addition to the exhaustive analysis each hedge fund undergoes before it is approved by the in-house investment committee, the fund's team of managers must be assessed by a manager and partner of Altex at their own offices.
